

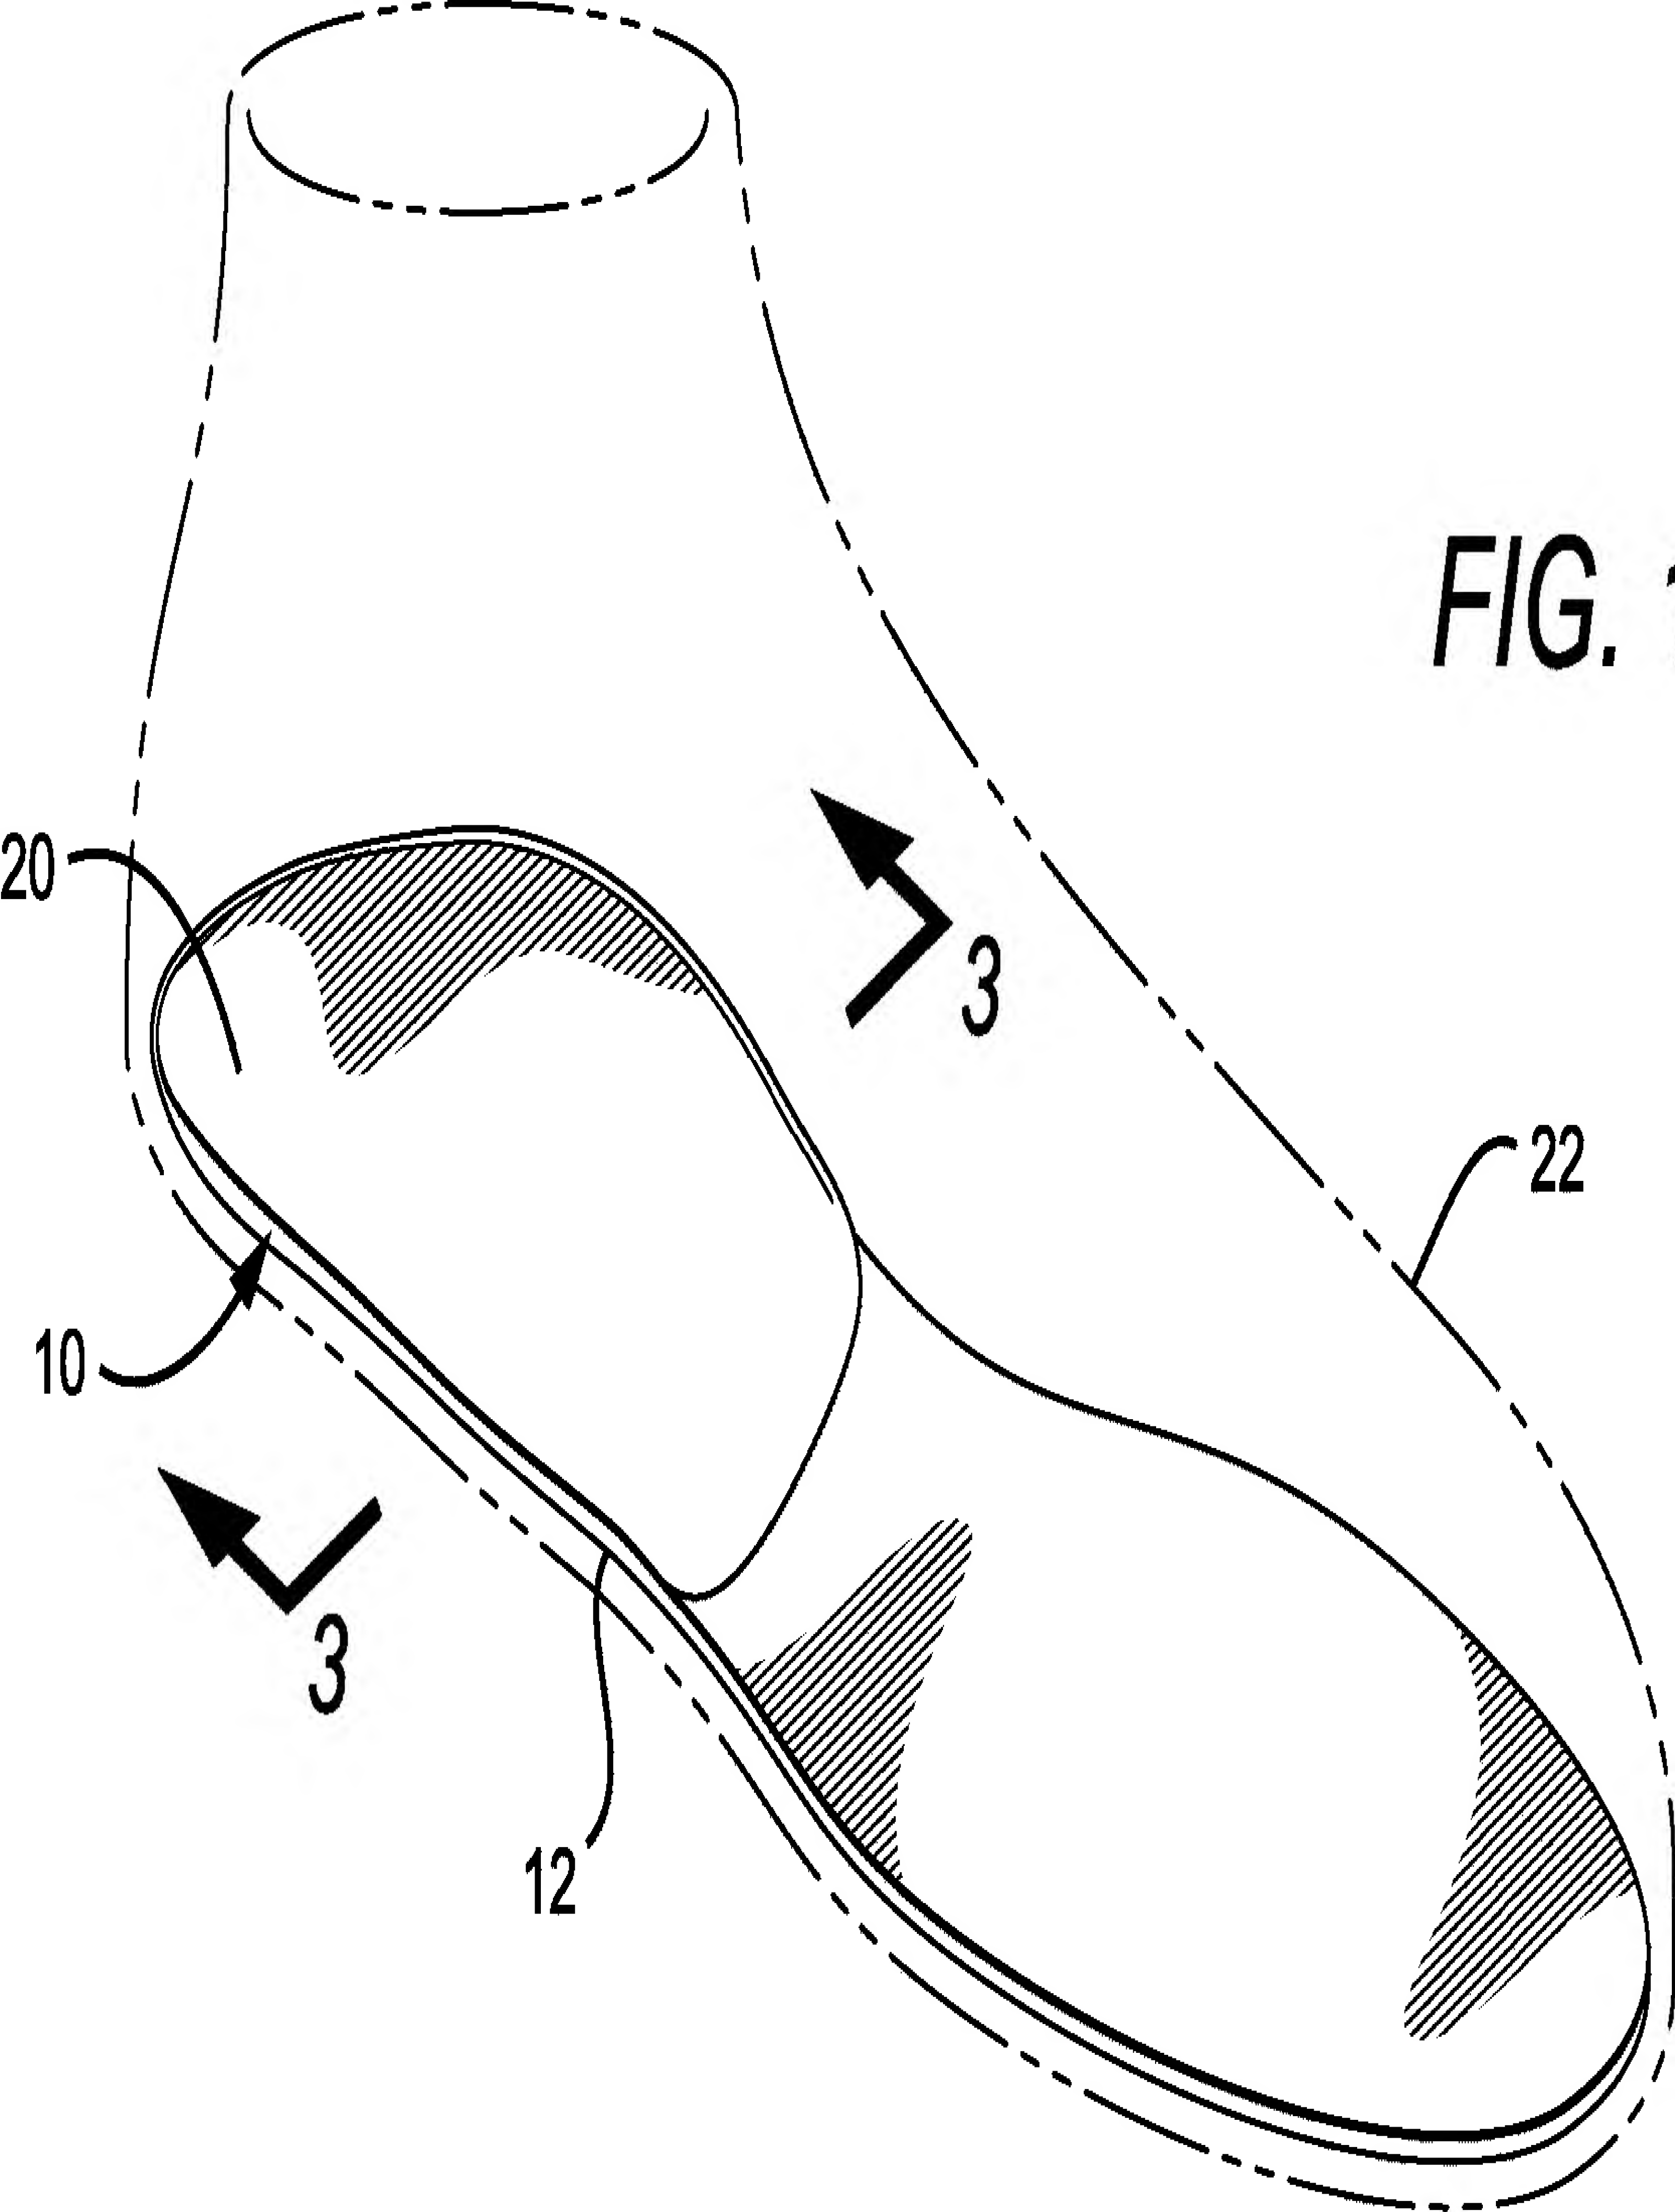

**FIG. 1**

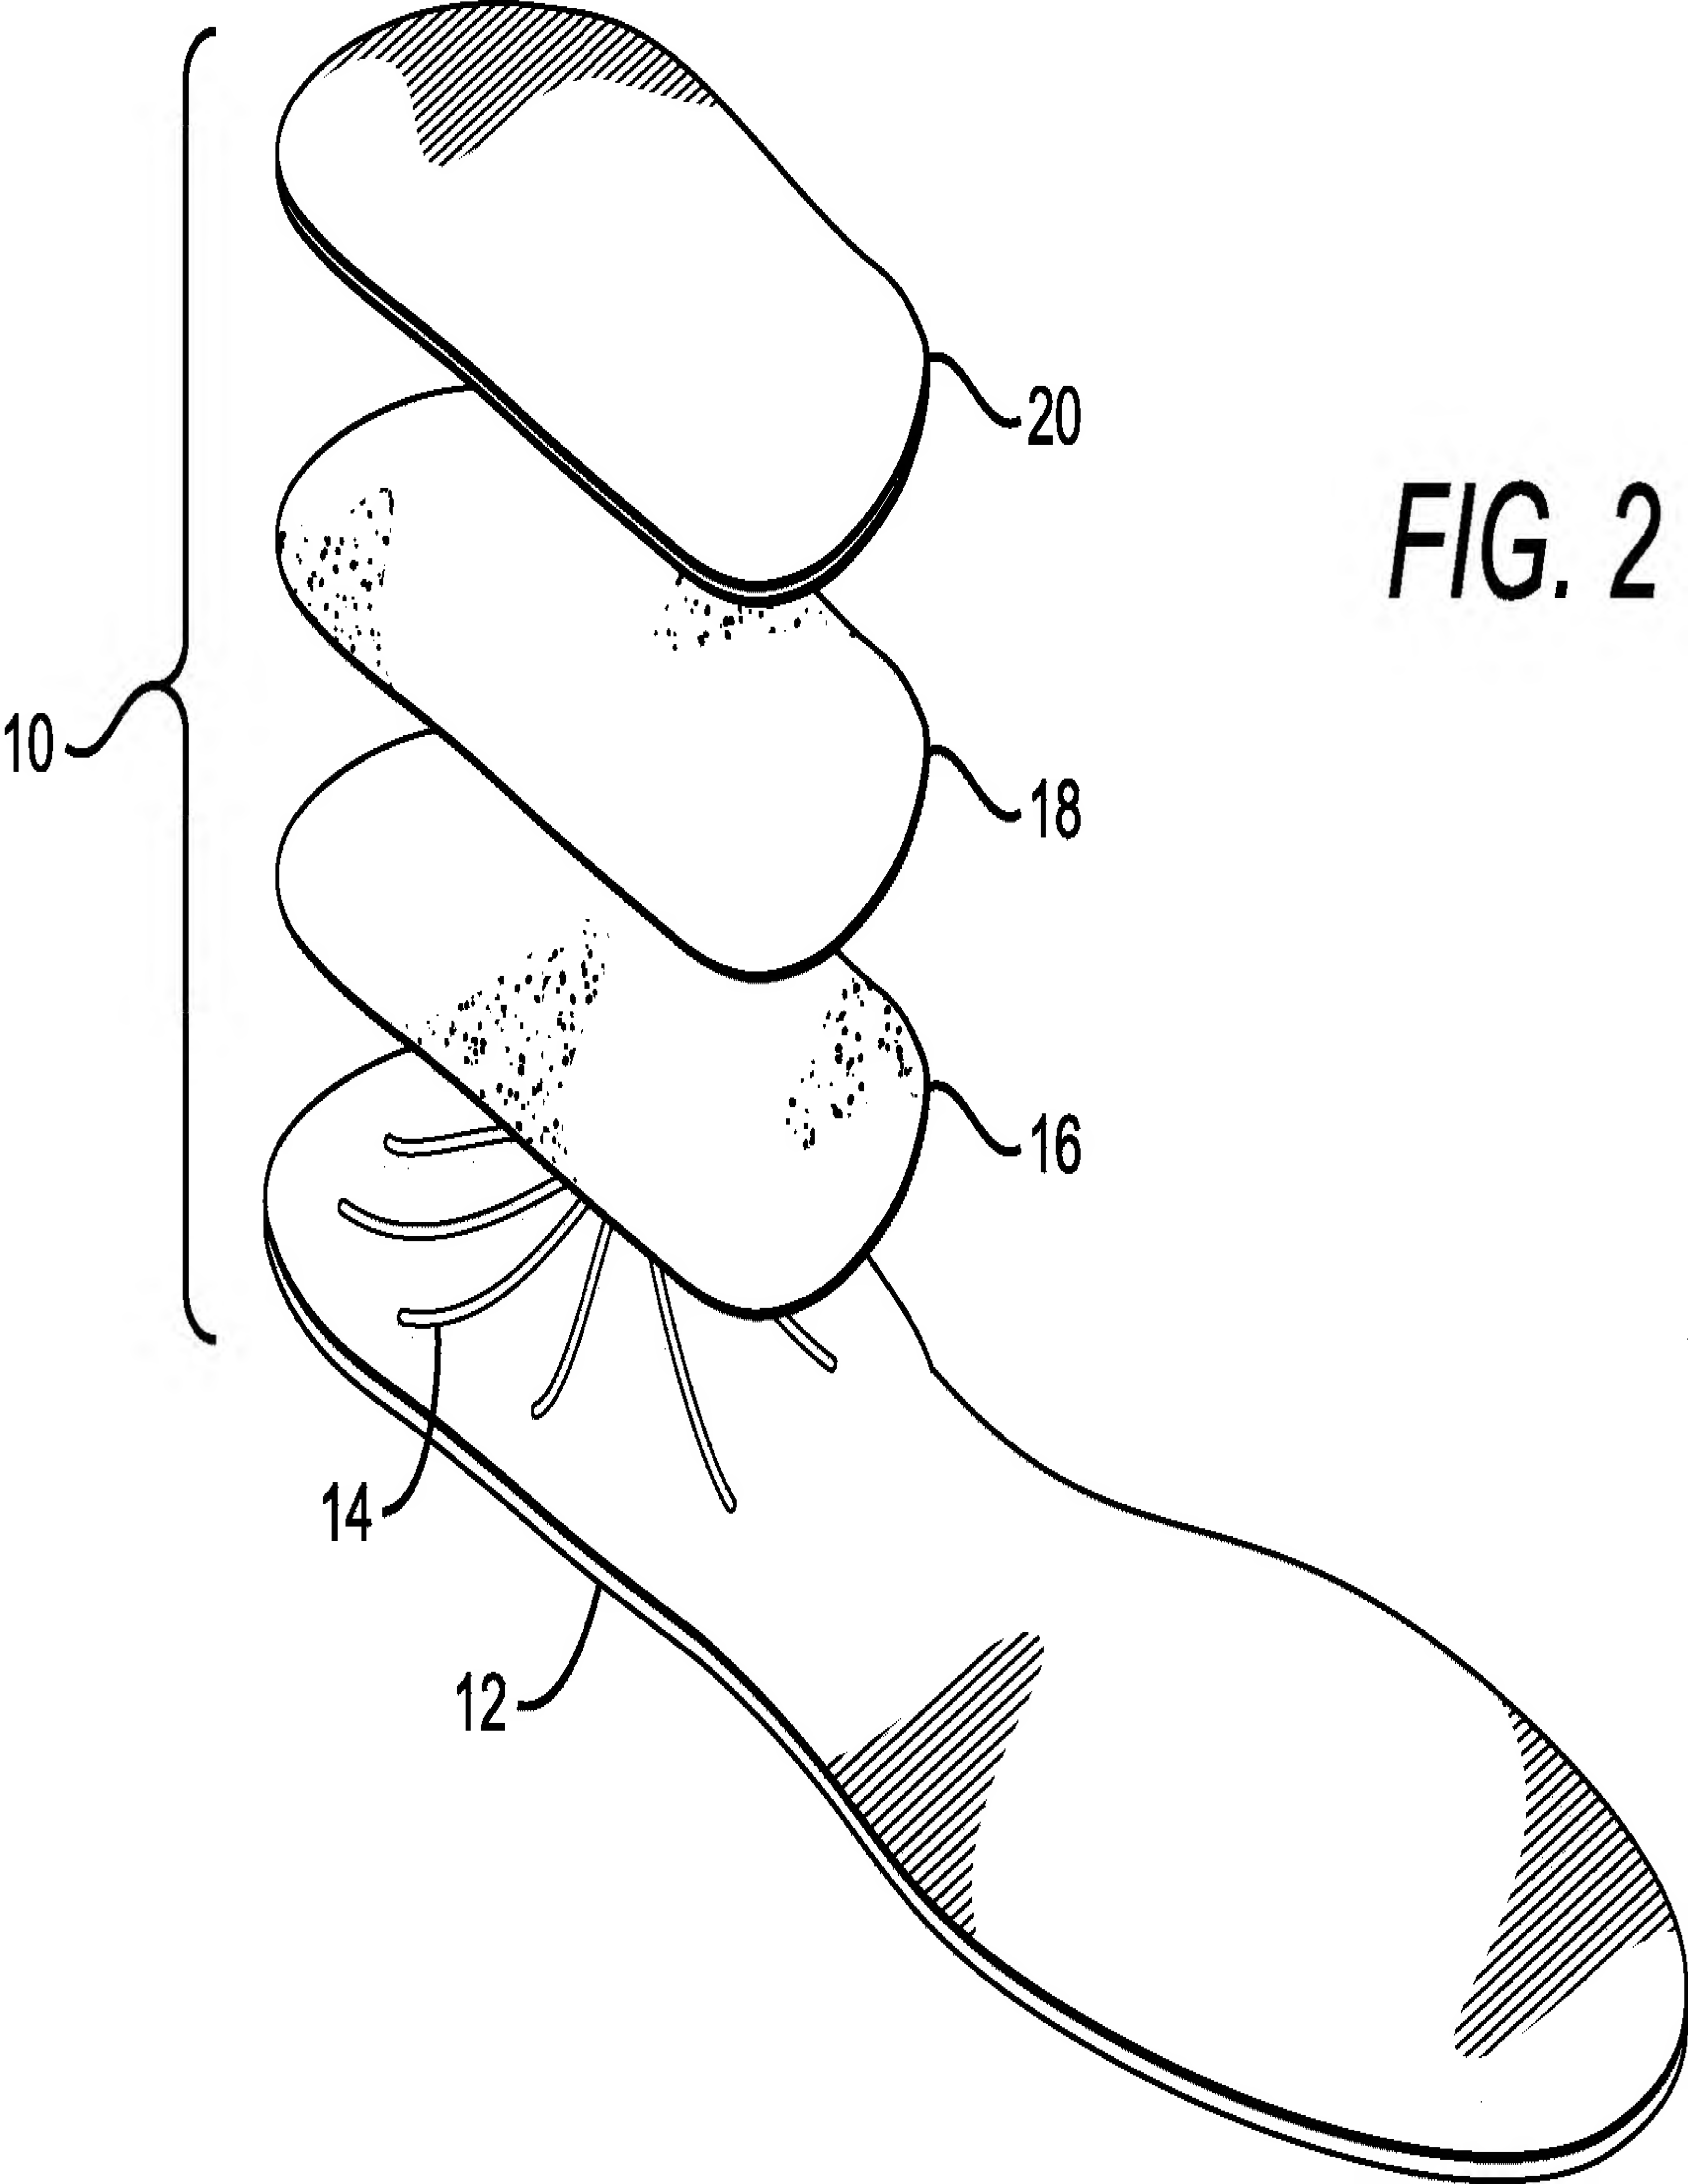

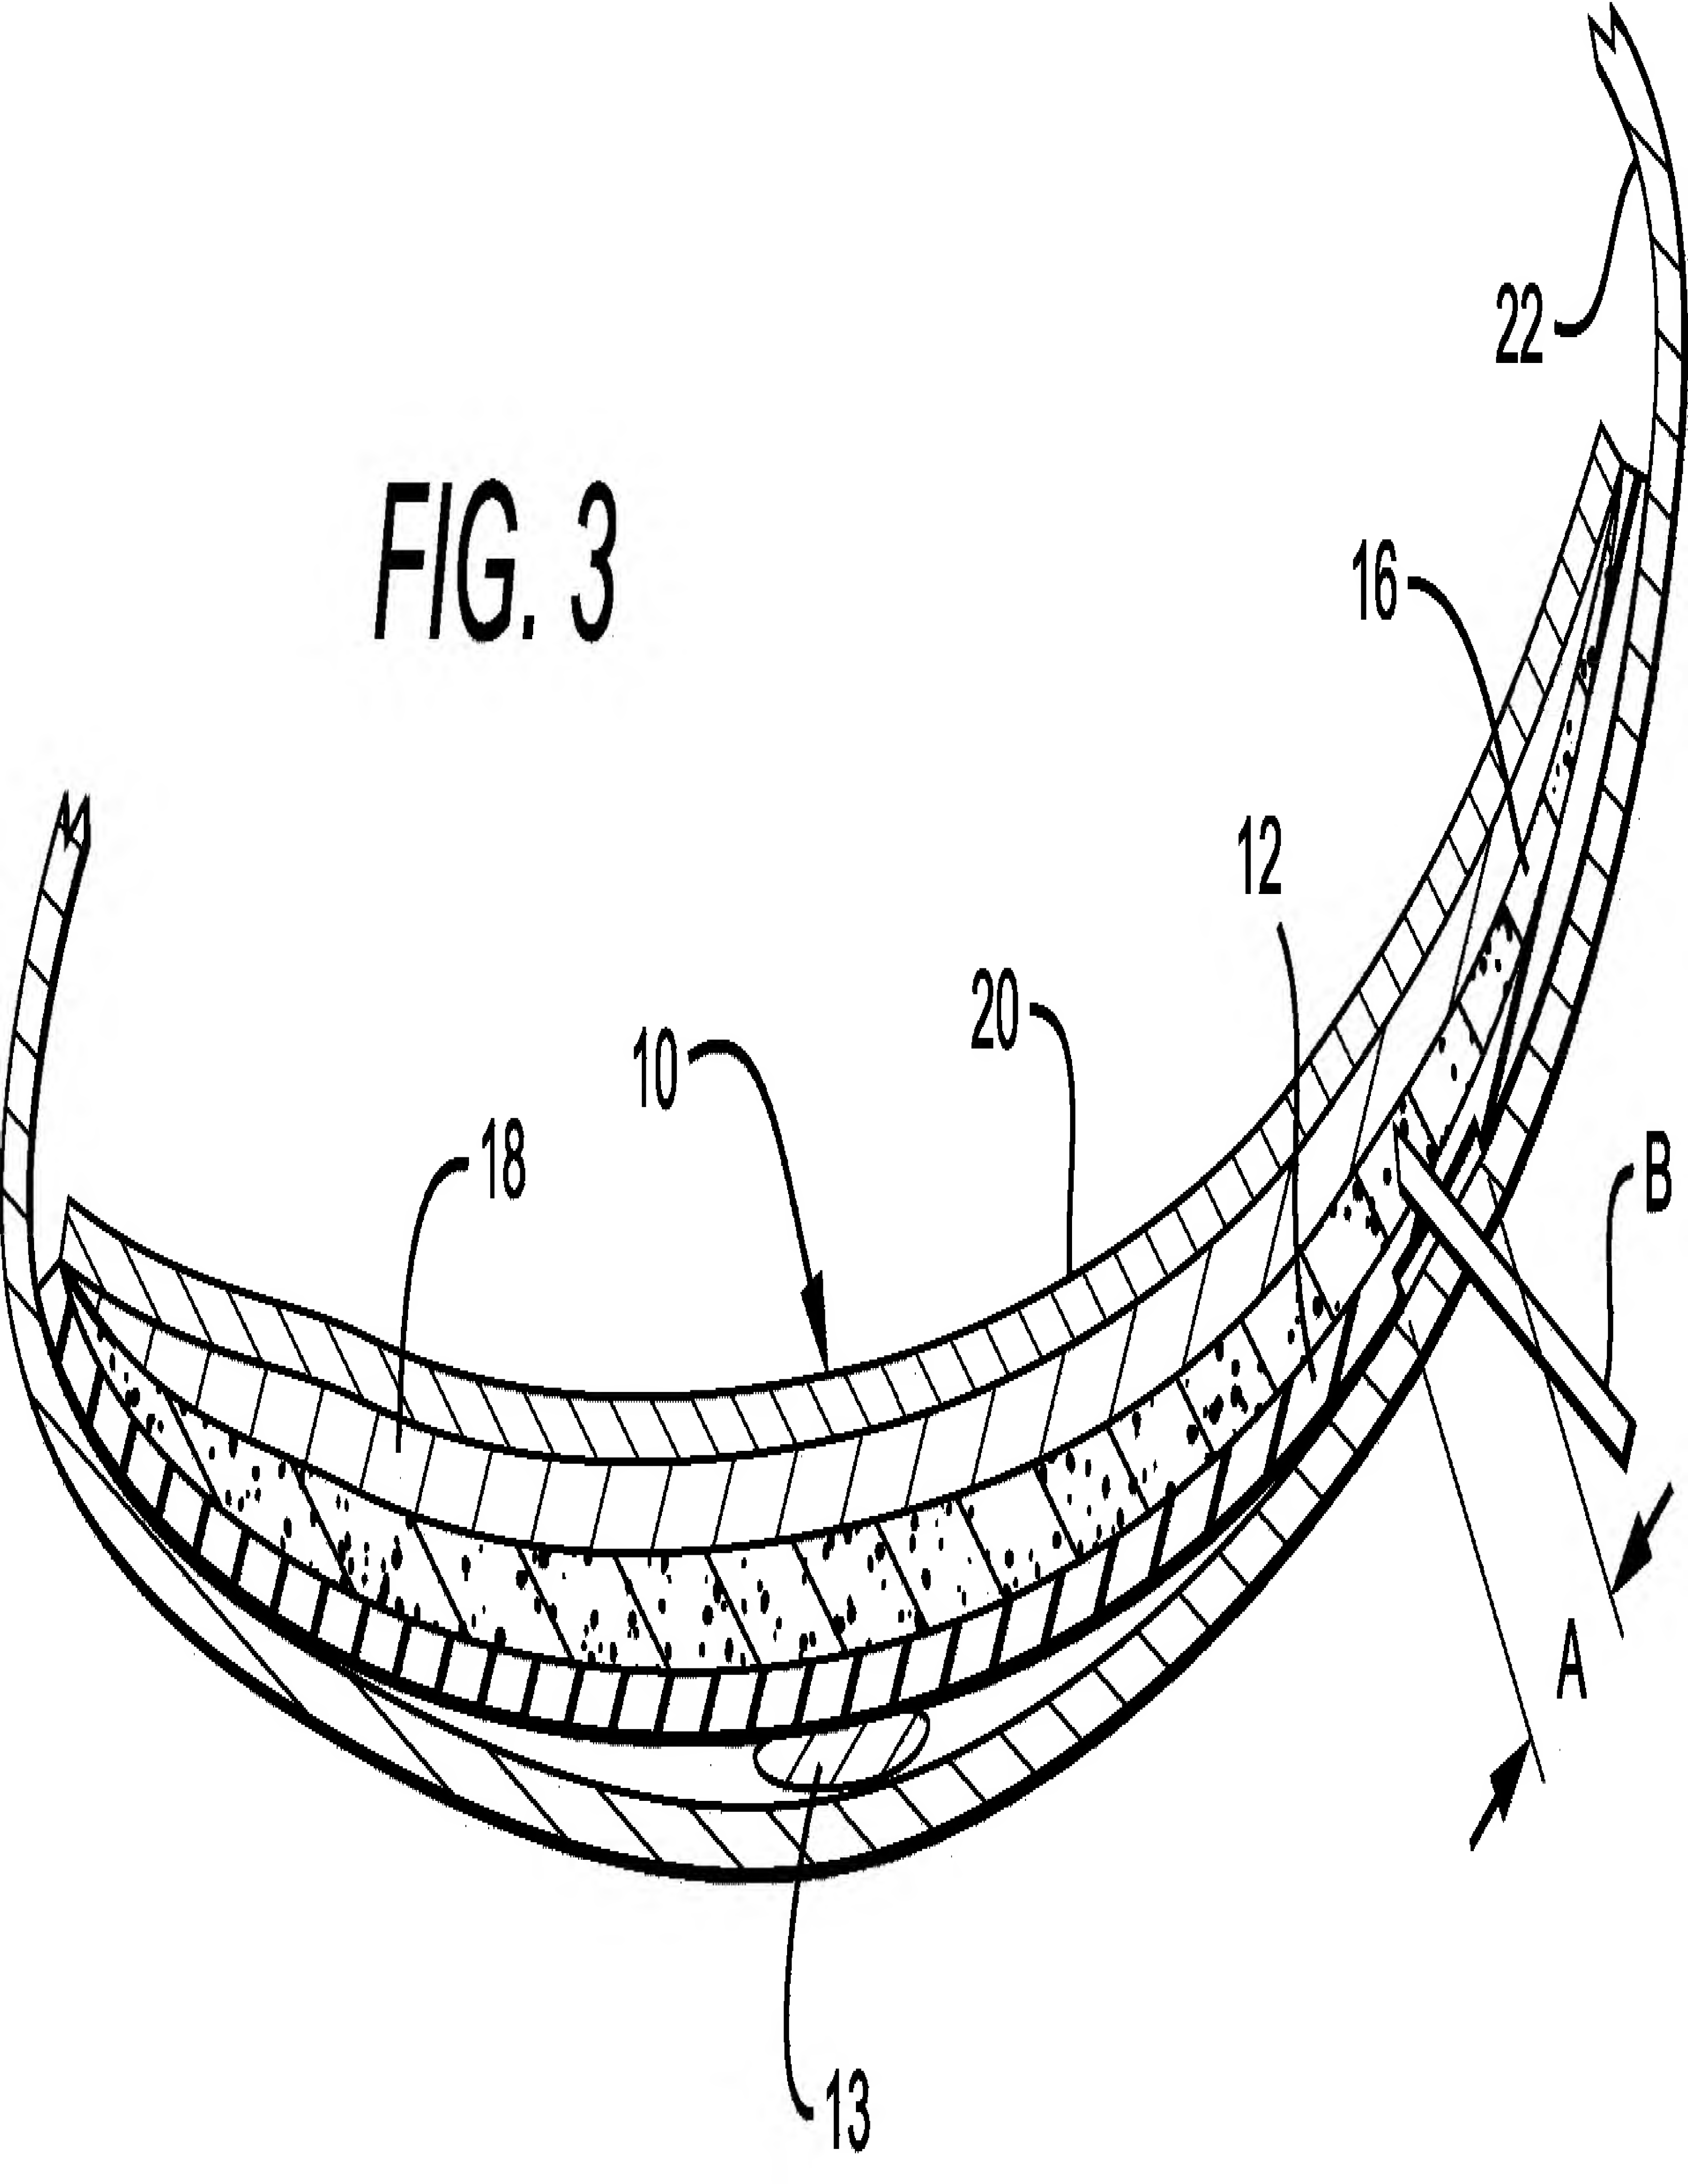

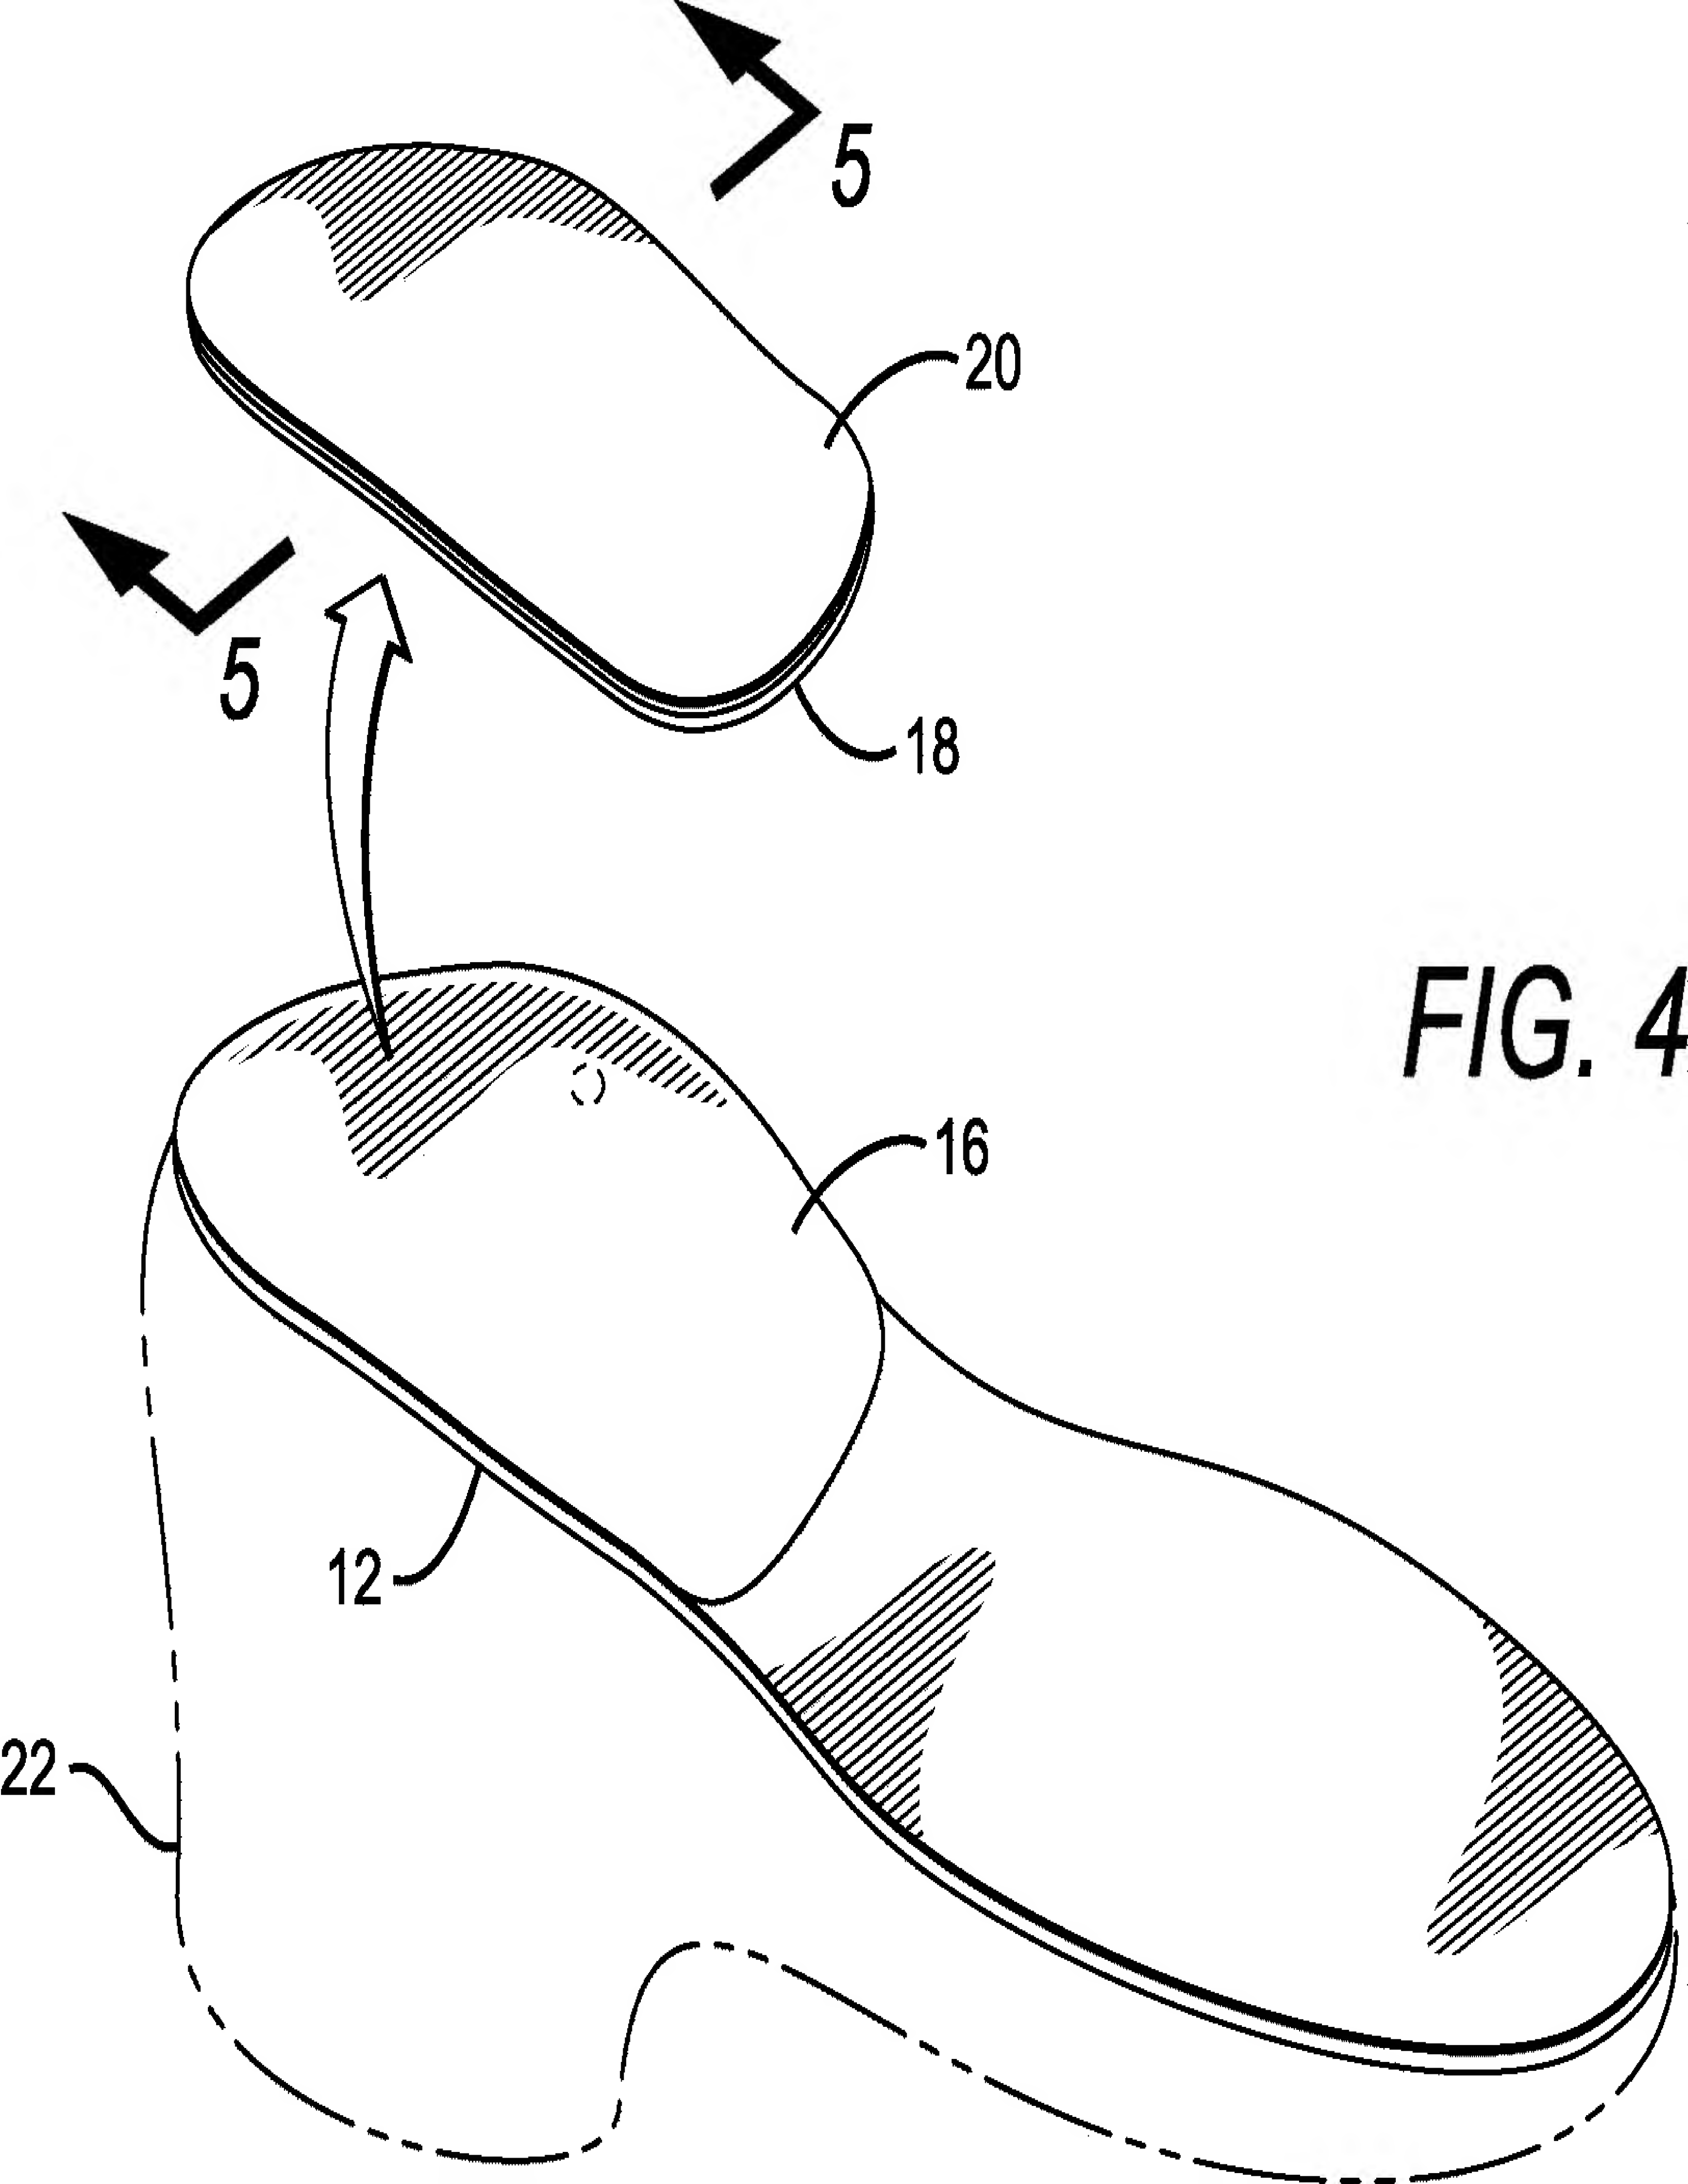

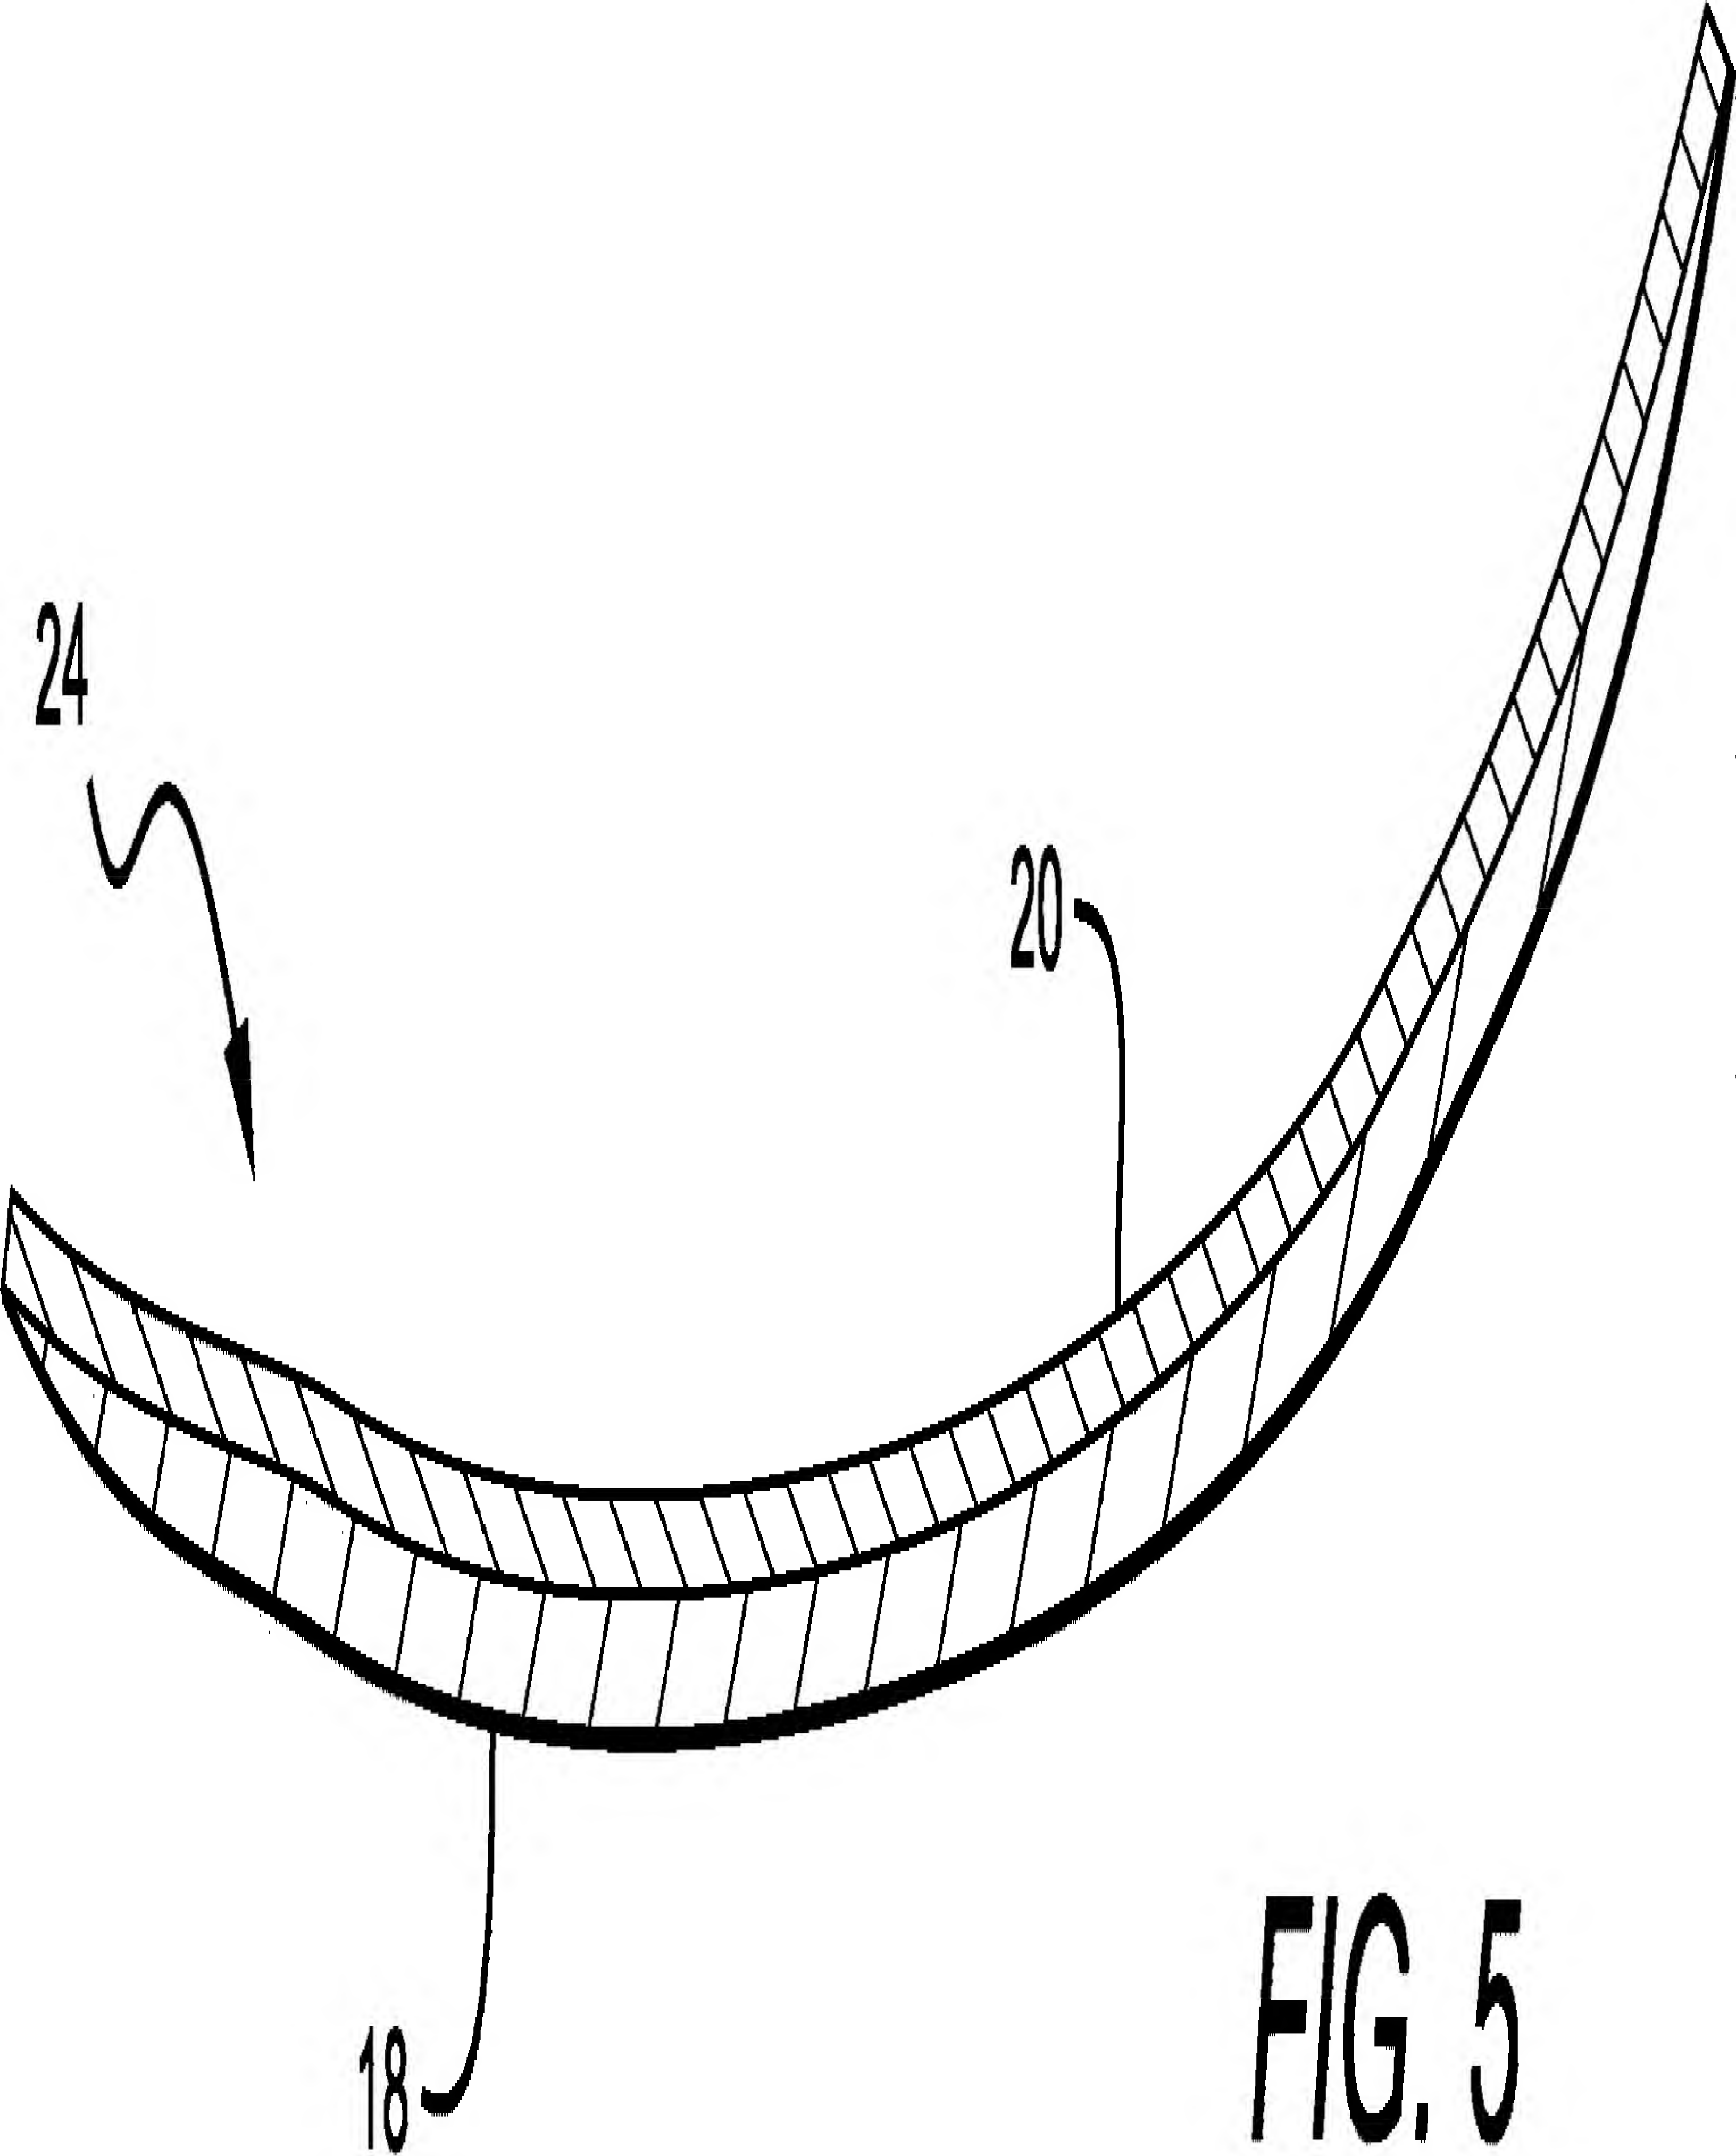

FIG. 3 is a perspective view of a curved, multi-layered structure. The structure consists of several layers, with the outermost layer labeled 10. Inside layer 10 is a layer labeled 18, which contains a pattern of small dots. Below layer 18 is a layer labeled 20, which contains a pattern of small circles. The innermost layer is labeled 12. The structure is curved, and a cross-section line A-A is indicated by an arrow. Another cross-section line B-B is indicated by an arrow. A label 13 points to the innermost layer 12. A label 16 points to a layer between 12 and 20. A label 22 points to the outermost layer 10. The structure is shown in a perspective view, with the layers curving around a central axis.
